THE FOUNDATION FOR THE CONSERVATION OF SALAMANDERS BOARD

Lauren Augustine
Julia Geschke
Kirsten Hecht
Caley Johnson
Jasper Leavitt
Kat Mantzouris (outgoing)

FCSal is excited to wrap up 2022 and move into 2023. Here is a little bit about what we were up to in 2022.

We re-instated our grant program in 2022, after a break in 2021 due to the impacts of the pandemic. This is a vital part of our mission, to fund salamander conservation, education and/or research initiatives through an annual grant, so this was the main focus for the board in 2022. We are proud to announce that FCSal funded \$6,163.00 in research, conservation and educational outreach projects through our annual grant process. The details about these grants and updates from the researchers can be found on our website.

<https://www.fcsal.org/grants>

We celebrated the 7th Annual Salamander Saturday on 7 May 2022. This is another critical part of FCSal's mission to disseminate information

about the threats to salamanders and their habitat. We have created several regional specific salamander education tri-folds for use by our supporters. If you would like to collaborate with FCSal on developing a hand out for your event, please contact us at info@fcsal.org. You can see more about upcoming Salamander Saturday Events in 2023

at: <https://www.fcsal.org/salamander-saturday>

We continue to monitor and promote the Amphibian Report Card, an educational and collaborative tool to support amphibian conservation efforts. To better support this project, we will be asking all grant applicants to please update this important education tool in 2023.

<https://www.fcsal.org/amphibian-report>

We are sad to say that long time board member, Kat Mantzouris, is stepping down from FCSal. Kat has been instrumental as the treasurer of FCSal. She has served on the grant review committee and was key in FCSal's fundraising and education initiatives. We were lucky to have her and know she will continue to support salamander conservation and FCSal.

In the coming year we are excited to get back on track

with in-person events and fundraising efforts to ensure that we can continue to provide critical funding for salamander conservation, education and research projects in the coming years.

After a great 2022, we are wrapping up grant reviews for funding in 2023 and gearing up for Salamander Saturday on 6 May 2023.

We are also excited to announce a new position going into 2023, Salamander Saturday Coordinator. This position will help FCSal better meet its goals to promote salamander conservation on a global scale.

As always, a huge thank you to all of FCSal's supporters. This would not be possible without your generosity, creativity and dedication to preserving the world's salamanders.

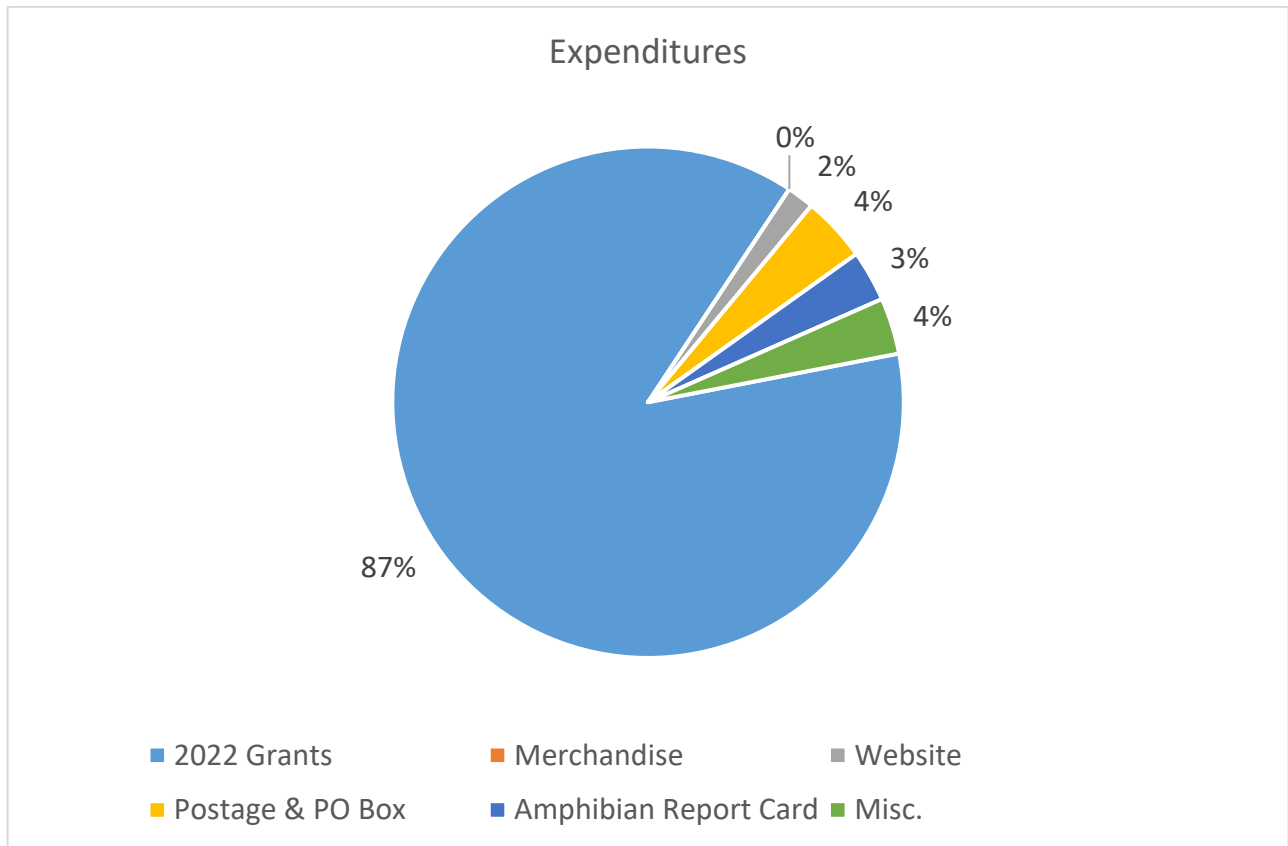

Special thank you to the Sequoia Park Zoo for raising funds for FCSal through their Quarters for Conservation Initiative.

A handwritten signature in black ink, appearing to read 'Lauren Augustine'.
